

The GSSI – Gran Sasso Science Institute (www.gssi.it, L'Aquila, Italy) offers the opportunity for 10 students to pursue a Ph.D. in Astroparticle Physics, starting in the Academic Year 2023/2024. The research lines at GSSI include both experimental and theoretical projects on: gravitational waves and multimessenger (astro)physics, high energy cosmic radiations, neutrino physics, and underground rare event searches, working in close collaboration with the nearby INFN Gran Sasso Laboratory and INAF Observatory of Abruzzo.

The applications must be submitted by **May 23rd 2024, 3 pm** (Central Europe Time) through the online form available at the following link <http://www.gssi.it/phd/>, where also the actual call (both in Italian and English) can be found.

Further details can be found also on inspire at this link <https://inspirehep.net/jobs/2774940>
