Resources

The Institute has a conference room (capacity 84 people), two seminar rooms (for 20 people each), two working rooms (for 4 and 6 people), lecture room, library, computer room, 13 individual offices and 37 places in 8 shared offices. The conference room and seminars are equipped

Collaborate

In mathematics research, interchange of ideas plays a central role. In spite of the fact that electronic media make possible to share quickly and widely the last progress in the field, the personal contact between researchers is crucial in spreading this progress. The IEMath-GR
