## COMPETENCIAS GENERALES Y ESPECÍFICAS DEL MÓDULO

### GENERALES

CG1. Adquirir conocimientos aplicados, avanzados y especializados en un cuerpo de conocimientos conceptuales, procedimentales, técnicos y actitudinales que permitan a los estudiantes desenvolverse en el ámbito de la Psicología Jurídica y Forense.

CG3. Adquirir una actitud de actuación profesional a partir del respeto y la consideración de los principios y valores propios de la Psicología Jurídica-Forense, así como del Código Deontológico de la profesión.

CG4. Adquirir la capacidad para tomar decisiones de un modo crítico sobre la aplicación e interpretación de los resultados derivados de los procedimientos de evaluación e intervención psicológica forense.

### ESPECÍFICAS

CE4. Aprender las teorías, interpretaciones y métodos en psicometría y análisis de datos.

CE5. Saber realizar el diseño y la realización de evaluaciones mediante el adecuado uso de test y cuestionarios Psicológicos

CE13. Aplicar e interpretar las técnicas e instrumentos de evaluación neuropsicológica en las distintas áreas cognitivas y comportamentales.

CE14. Adquirir habilidades relacionadas con la elaboración de informes periciales, intervenciones específicas y otros aspectos pertinentes, relacionados con el ejercicio profesional.

CE15. Adquirir conocimientos aplicados en relación a casos prácticos, de diversa índole, en los diferentes ámbitos de la Psicología Jurídica y Forense.

### TRANSVERALES

CT3. Ser capaz de divulgar y comunicar de forma eficaz, entre otros, a destinatarios, profesionales, responsables institucionales y población general, los resultados de las diferentes fases del proceso de evaluación e intervención.

## OBJETIVOS (EXPRESADOS COMO RESULTADOS ESPERABLES DE LA ENSEÑANZA)

### *El alumno sabrá/comprenderá:*

- Los conocimientos aplicados, avanzados y especializados en un cuerpo de conocimientos conceptuales, procedimentales, técnicos y actitudinales que permitan a los estudiantes desenvolverse en el ámbito de la Psicología Jurídica y Forense.
- Las teorías, interpretaciones y métodos en psicometría y análisis de datos.
- Realizar el diseño y la realización de evaluaciones mediante el adecuado uso de test y cuestionarios Psicológicos.
- Aplicar e interpretar las técnicas e instrumentos de evaluación neuropsicológica en las distintas áreas cognitivas y comportamentales.
- Elaborar informes periciales, realizar intervenciones específicas y otros aspectos pertinentes, relacionados con el ejercicio profesional.
- Los conocimientos aplicados en relación a casos prácticos en los diferentes ámbitos de la Psicología Jurídica y Forense.

ugr

Universidad  
de Granada

- Divulgar y comunicar de forma eficaz, entre otros, a destinatarios, profesionales, responsables institucionales y población general, los resultados de las diferentes fases del proceso de evaluación e intervención.

***El alumno será capaz de:***

- Actuar profesionalmente a partir del respeto y la consideración de los principios y valores propios de la Psicología Jurídica-Forense, así como del Código Deontológico de la profesión.  
- Tomar decisiones de un modo crítico sobre la aplicación e interpretación de los resultados derivados de los procedimientos de evaluación e intervención psicológica forense.

**TEMARIO DETALLADO DE LA ASIGNATURA**

Tema 1: Introducción: Una aproximación científica a la Neuropsicología Forense.

- 1.1. Objetivos y limitaciones de la Neuropsicología Forense
- 1.2. Metodología de investigación en Neuropsicología Forense
- 1.3. Prevalencia, sensibilidad y especificidad, valor predictivo positivo y negativo
- 1.4. La formación del Neuropsicólogo Forense
- 1.5. La relación abogados/neuropsicólogos
- 1.6. Cuestiones éticas
- 1.7. Introducción a la evaluación de la simulación
- 1.8. Neuroimagen funcional en Neuropsicología Forense

Tema 2: Aspectos forenses de la Evaluación Neuropsicológica.

- 2.1. Traumatismo Craneoencefálico pediátrico
- 2.2. Traumatismo Craneoencefálico leve
- 2.3. Traumatismo Craneoencefálico moderado y severo
- 2.4. Daño neurotóxico
- 2.5. Competencias civiles en adultos con demencia
- 2.6. Neuropsicología Forense criminal

Tema 3: Aplicación e interpretación de instrumentos en Neuropsicología Forense (I y II).

3.1. Pruebas específicas de simulación:

- VSVT
- TOMM
- Dot Counting Test
- Test de la b
- Test de los 15-ítems de Rey

3.2. Pruebas no específicas:

- Test de la Figura Compleja de Rey
- Test de atención d2
- Fluencia: FAS/ Animales y Frutas
- Letras y Números
- Cambios
- Stroop

**ugr**

Universidad  
de Granada

-TAVEC  
3.3. Elaboración y defensa del informe neuropsicológico forense.

**BIBLIOGRAFÍA**

Ver anexo de la Guía Docente.

**METODOLOGÍA DOCENTE**

La materia utiliza una metodología de enseñanza-aprendizaje activa y participativa, compuesta principalmente por:

- Método expositivo / Clase magistral.
- Resolución de problemas (ejercicios y/o casos prácticos).
- Aprendizaje cooperativo (realización de trabajos individuales o grupales).
- Búsqueda, estudio y análisis bibliográfico.
- Aprendizaje orientado a proyectos.

Las actividades formativas propuestas guardan relación con las competencias especificadas en el master y son la siguientes:

| ACTIVIDADES FORMATIVAS.                              | Horas | Presencialidad % |
|------------------------------------------------------|-------|------------------|
| Clases teóricas.                                     | 10    | 100              |
| Clases prácticas                                     | 15    | 100              |
| Elaboración de trabajos (individuales y/o en grupo). | 20    | 0                |
| Preparación exposiciones.                            | 5     |                  |
| Presentación y evaluación de trabajos.               | 3     | 100              |
| Actividades de estudio.                              | 20    | 0                |
| Tutorías.                                            | 2     | 100              |

**EVALUACIÓN (INSTRUMENTOS DE EVALUACIÓN, CRITERIOS DE EVALUACIÓN Y PORCENTAJE SOBRE LA CALIFICACIÓN FINAL, ETC.)**

El sistema de evaluación se basa en la **Normativa reguladora de los estudios de máster universitario de la Universidad de Granada** (Aprobado en la sesión extraordinaria de Consejo de Gobierno de 18 de mayo de 2015) y en la **Normativa de evaluación y de calificación de los estudiantes de la Universidad de Granada** (Aprobado en la sesión extraordinaria del Consejo de Gobierno de 20 de mayo de 2013).
