

Master Erasmus mobility programm for biotechnology in Vienna

12/01/2021

The session is to offer students interested in an Erasmus-Semester a brief introduction of two Viennese University departments for biotechnology.

- **Ponente:**

- **Rudolf Friederich**, from the University of Natural Resources and Life Science, and the Applied University, FH Campus Wien.

- **Resumen:**

- The purpose of the session is to offer students interested in an Erasmus-Semester a brief introduction of two Viennese University departments for biotechnology: the Dept. of Applied Life Sciences at the Univ. of Applied Sciences, Fachhochschule Campus Wien, and of the Department of Biotechnology at the University of Life Sciences and Natural Resources (BOKU). The presentation will address curricula, highlighting the courses in English, and very broadly the areas of research and offer time for questions.

- **Fecha:**

- **Jueves 12 de Enero, de 10:00 a 11:00.**

- **Lugar:**

- Conferencia online <https://meet.google.com/egs-puux-nda>
