

Vienna BioCenter PhD Student Symposium 2021

15/10/2021

In the 18th Vienna BioCenter PhD Program symposium “Building Bridges” we want to put the diversity of life science in the spotlight and highlight the importance of interdisciplinarity in scientific research for our current understanding of fundamental biological questions.

With “Building Bridges” we want to put the diversity of life science in the spotlight and highlight the importance of interdisciplinarity in scientific research for our understanding of fundamental biological questions. The symposium will feature a diverse panel of scientific speakers from disciplines relevant to our campus (Immunology & Cancer, Biochemistry & Biophysics, Development & Neuroscience, Industry).
