

Seminario impartido por la Profesora Suparna De (University of Surrey)

~~Desde~~ el Jue, 10/04/2025 - 09:23

Seminario

Se invita a asistir al siguiente seminario, que será impartido en dos días (se puede también asistir solo a una de las sesiones):

Profesora: Suparna De. Senior Lecturer in the Department of Computer Science, University of Surrey. <https://www.surrey.ac.uk/people/suparna-de>

Lugar: Edificio Auxiliar de la ETSIT, aula 0.3

Día y hora: Jueves, 10 de abril, a las 16:00

TÍTULO: Ontology applications & Data analytics

RESUMEN: Presenting case studies of ontology applications from funded projects, covering smart tags and smart campus scenarios. We will also do a practical exercise on rule-based reasoning. The second half will cover case studies of large-scale data analysis, including spatio-temporal analysis of social network data.

Día y hora: Viernes, 11 de abril, a las 16:00

TÍTULO: Machine Learning (ML) and knowledge graphs

RESUMEN: Starting with the basic concepts of knowledge graphs, definitions and types, the lecture will cover approaches, application considerations and examples from research. We will also do a practical exercise on knowledge graph concepts linking.

A quienes asistan se les entregará un **certificado de asistencia y participación**.
