Ciclo de Conferencias MUIT. 5G Radio Access Network: From Cloud RAN, to Virtual RAN and Open RAN

~~Desde~~ el Lun, 29/05/2023 - 19:30

Título: "Ciclo de Conferencias del MUIT: 5G Radio Access Network (RAN): From Cloud RAN, to Virtual RAN and Open RAN"

Ponente: Javier Lorca, Future Wireless EU Labs, InterDigital, UK

Abstract: Moving some of the RAN functions to the Cloud is a general trend that leads to different, but related, initiatives aimed to cloudify, virtualize, and/or open the RAN. This talk will describe the rationale of each one and explain their differences in the context of 5G and Beyond-5G cellular communications.

Fecha, Hora y Lugar: lunes, 29 de Mayo, 17:30, Online (para acceso contactar con prof. Pablo Ameigeiras).

ORGANIZA: Máster en Ingeniería de Telecomunicación
