Two talks about Mathematical Optimization tools in Data Science

Next Wednesday April 4th, two speakers will talk in Facultad de Ciencias Economicas y Empresariales (UGR) about Mathematical Optimization tools in Data Science:

- **Emilio Carrizosa** (IMUS, Universidad de Sevilla): New Support Vector Machines models and methods.
- **Cristina Molero** (IMUS, Universidad de Sevilla): Optimal Classification Trees.

The talks will start at 10:00am in Salon de Grados FCCEE.
